Endurance 1 – 4	90 seconds	1

2.9.5 The Pit Stop time is measured by the vehicle transponder activating the timing beams or loops in the track at the entrance and exit of the pit lane – signalled by a Britcar Endurance Pit Speed Board. The total time taken by a competing vehicle between these two points in the pit lane will determine the length of the pit stops and will be monitored by the appointed Motorsport UK Official Timekeepers.

2.9.6 Pit Window for races upto and including a scheduled duration of 60 minutes :-

Each 60 minute race or under race will have a 15 minute pit window. All entrants must make one mandatory pit stop, which will include any necessary refuelling, during this pit window. 2.9.9 Additional Stops

Any additional stops are free in terms of duration with the exception of any stops that require refuelling whereby the stop must last the same length of time as the mandatory pitstop, including any success time penalties (see 2.9.7)
